## Empowering Philippine Industry: Imaxx and Leipole Forge Strategic Alliance

Leipole Electric, a global leader in enclosure ventilation and thermal management, brings to the table a portfolio of highly engineered products that elevate performance and longevity within industrial systems.

From high-efficiency fans and precision thermostats to durable panel heaters and hygrostats, Leipole's offerings are designed to optimize control panels, protect sensitive electronics, and ensure operational stability under demanding conditions.

ENERGIE SOLUTIONS CORP.  
AUTHORIZED DISTRIBUTOR OF:

Precision Climate Control for Philippine Industry

## Brilliant Solution For Your Business

By integrating Leipole's trusted technology with Imaxx's strategic communication and client-centric service, Filipino industries gain access to smart solutions that safeguard productivity and minimize downtime.

Whether in manufacturing plants, data centers, or energy distribution hubs, these products serve as the silent guardians of system integrity—ensuring that temperature, humidity, and airflow remain precisely where they need to be.

### Engineering Excellence with Leipole Inside

#### LEIPOLE PROFILE ACHIEVE TO SUCCESS

Leipole believes QUALITY is critical. We committed ISO9001 from paper to real work in each position in the company.

From supplier audits and incoming material inspection to quality control and final packing, we take each step very carefully to assure our product quality.
